

What do windows say about the room? By Christopher Huston

You arrive on scene and are assigned Search. As you prepare to enter you glance at the area you are expected to perform a primary. What do the windows tell you about the interior layout? Can the windows be used to gain intel on the type of room it is in?

Type of residential windows

- Double Hung
- Casement
- Awning / Jalousie
- Slider
- Fixed / Picture

Discuss with your crews various types of windows and what types of areas they may indicate.
